For the prevention and cure o
BILIOUS AND MALIGNANT FEVERS
is recommended
HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of person can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders
Consumptions
Lowness of spirits
Loss of appetite
Impurity of blood
Hysteric affection
Inward weaknesses and debility
Violent cramps in the stomach and back
Indigestion
Melancholy
Gout in the stomach
Pains in the limbs
Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

From the Richmond Enquirer.

Report of the Commissioners appointed to survey the lower part of Chesapeake Bay.

Old Point Comfort, Hampton-Roads, 24th January, 1818.

The undersigned Commissioners appointed to examine the lower part of Chesapeake Bay, Hampton Roads, and York river, for the purpose of determining whether the entrance into the former could be prevented by fortifications from the Horse Shoe to the Middle Ground—whether the latter could be so fortified, as to prevent the entrance of a hostile force, have the honor to state, that from various causes, they were not enabled to assemble until the latter part of the month of December, 1817—that they commenced to discharge their duties assigned them on the first of January 1818, at Old Point Comfort.—From, the advanced stage of the season, and the subsequent uncertainty of having such weather as would enable the Commissioners to effect a thorough examination of the waters of Chesapeake Bay, and the entrance of York river, they recommend that the execution of their duty in relation to those places, may be postponed until the first of May next.

The date of this report, from the 1st of January, the Commissioners have been employed in surveying Old Point Comfort, the Rip Rap Shoal, and the entrance into Hampton Roads. The result of this examination, is a conviction on the part of the commissioners, that the passage into those roads can be so fortified as to prevent the resistance of any hostile fleet. The extent and efficiency of such fortifications will depend upon the decision of the government as to the length of time which the works should be enabled to withstand the attack of a combined naval and land force of a given magnitude.

If the amount of resistance to be made at this pass be merely an obstruction of the entrance into Hampton Roads, without any reference to a land attack, the Commissioners believe that competent water defences may be constructed to such an effect. As however the object of forcing an entrance into Hampton Roads might be deemed by an enemy worth the expense of a regular siege, the commissioners deem it their duty to recommend a system of defence equal to such an exigency. Such a situation would embrace the occupation of the Rip Rap Shoal, with a castellated fort; the channel between Old Point Comfort, with a boom raft—and Old Point, itself, with an inclosed work, the whole to be so located as to afford a mutual protection, and to embrace in the total, the power to resist any force which may be brought against the pass into Hampton Roads. The commissioners have not as yet been able to collect sufficient data to authorize them to offer you a complete plan. The magnitude of the work may effect the prices of materials and workmanship, and as the nature of substratum at the scites has not been sufficiently ascertained no determinate amount of expense can be estimated upon which the commissioners can with safety rely.

For a general view of the subject the commissioners present the inclosed charts, which will exhibit the positions that should be occupied, and may enable you to form some opinion of the approximate expense which the adoption of the system would involve—in aid of which they also enclose an estimate for a work on the Rip Rap Shoal, which is predicated on the supposition that the substratum of that scite is solid, and upon the usual principles of materials and workmanship in this section of this union.

It is the wish of the commissioners to lay before you their reasons in detail upon the proposed system, to which effect the commissioners can with usefulness employ their time till May next, in acquiring further information, and in digesting as perfect a plan as the nature of of the case will admit.

The commissioners deem it their duty to state to you that Majors Roberdeau, and Karney, and Lieutenant Blakely, have attended the Commissioners, and have by assiduous attention been materially beneficial in surveying and drawing.

Respectfully submitted.

ALEXANDRIA:
MONDAY, MARCH 9, 1818.

FROM OUR CORRESPONDENT AT WASHINGTON.

Saturday, March 7, 1818.

A petition was yesterday presented to the house of representatives, on behalf of major-general John Stark, for relief from the bounty (shame! to call it bounty, when even should it be granted, of which I can scarcely entertain a hope, it would not be half justice) of the house. This brave veteran, who distinguished himself in the day of trial, fighting under the banners of freedom, and whose valor was so signal as, when spoken of, to be generally illustrated by a comparison with the hardihood of old general Putnam, is now driven by the incompetency of his circumstances to his support, to throw himself on his country for relief in the last stage of life. After what has passed in the case of Gen. St. Clair, who demanded only the money he had lent, to save the country, is it likely that any thing should be done for the relief of General Stark?—I fear not—The house yesterday too refused to consider Gen. Reed's resolution for a monument to *Baron de Kalb*.—These things might all be done, and the character of the nation kept pure and unsullied, by the crumbs that fall from the tables of our gluttons.

The subject of internal improvement was yesterday introduced by Mr. Tucker of Virginia, in a committee of the whole, Mr. Pitkin in the chair, by the following resolution, contained in the report of the committee to whom that subject was referred—a report which must still be fresh in the memory of those who pay the proper attention to the important congressional documents:

"*Resolved*, That in order to promote and give security to the internal commerce among the several states—to facilitate the safe and expeditious transportation of the mails, by the improvement of the post roads, with the assent of the several states—to render more easy and less expensive the means and provisions necessary for the common defence, by the construction of military roads, with the like assent of the respective states—and for such other internal improvements as may be within the constitutional powers of the general government, it is expedient that the sum to be paid to the United States by the 20th section of the act to incorporate the subscribers to the Bank of the U. States, and the dividend which shall arise from their shares in its capital stock, be constituted a fund for internal improvement."

The resolution was read, and a motion made that it should be adopted. It might be regarded as the opening wedge which was to make way for a system of progressive improvement of incalculable importance to the country. But the stuff it has to pierce through is full of knots, and tough and cross-grained, and will not be easily rived—particularly at this time, when the spring of home begins to make the sap rise towards the head. In short, at the very first stroke of the maul, it encountered a knot, in a motion that the committee should rise—but this was negatived, and then began the long talk—so that without any thing being done, but speaking, or so much as a new proposition for amendment being offered—which was wonderful—the house adjourned, after giving the committee leave to sit again. To me it appeared that there was much less zeal disclosed than the magnitude and value of the subject would induce us to expect. However, it is to be resumed again, probably this day, and we shall see.

Jacob Hoffman, Esq. was on Saturday last, elected Mayor of the town of Alexandria, for the ensuing year.

Boston, Feb. 27.

BRITISH PLASTER LAW REPEALED.

By a gentleman from Moose Island, we learn, that the legislature of New Brunswick, on or about the 8th instant, repealed the act prohibiting the exportation of *plaster* to any port or place east of Boston by an unanimous vote. This measure, it was supposed, was adopted in concert with the legislature of Nova Scotia.

COMMUNICATED.

Departed this life, at his father's residence, in Washington City, Dr. CLAIBORN REILY, of the United States' army, in his 24th year. Often does it fall to the lot of surviving friends to lament the death of one dear to them, but seldom has the heart been pierced with a juster cause than the decease of this promising, already useful young man. Possessed by nature of all the most amiable feelings of man, with a mind susceptible of improvement, he early displayed the one, and performed his duty by a successful cultivation of the other, under his beloved preceptor, Dr. Worthington of Georgetown, Columbia. Having prepared himself for usefulness, by becoming as perfect in his profession as man may without experience, to enlarge his sphere beyond the limits of a young physician in the ordinary walks of life, he became an applicant for a post in the service of his country. The son of a revolutionary hero could not be unheard, and he was commissioned in the medical or surgical department. Immediately he was ordered, and as expeditiously repaired, to encounter the fatigues and hardships of the camp amidst the inclemency of a Canadian clime; so different from the enjoyment of an anxious, an affectionate mother's tenderness, or the directing hand of an experienced father, made more sweet by the mildness of this his native climate; yet the difference, however uncomfortable, must be borne—his country calls—generosity for his suffering fellowmen prompts. From the north he was ordered to the Missouri and Mississippi; there, among the savage wilds, did he successfully, as in the north, attend his suffering brethren. All can speak of his disinterested, his more than dutiful attention—'twas there, too much exposing his own health for the ease of the sick and wounded soldier, that he impaired his very robust constitution, and planted a disease (breast complaint) with which he died. He applied for permission to visit his family, no doubt anticipating his too hasty dissolution, and wishing to have the only earthly consolation left him—of once more beholding those on whom he dwelt with the fondest affection, and whose love was unbounded. Leave being granted him, he took shipping at New-Orleans, and after an unpleasant voyage arrived—alas! not to create pleasure by his return, but to distress by his altered appearance, and excite fears which have been too faithfully realized. Who can paint the mother's agony, the father's grief, or sorrow of his brothers and sister? The only consolation left, and sweetly cheering it is, is his happy issue, his pious resignation to his Maker's will. Receive, lamented youth, this tribute from one who knew your worth from your cradle. Though short your time, you depart not unknown; many will grieve for their faithful friend—for him who kindly ministered to their most grievous wants; and many have gone before you, who, in the arms of death, speechless, smiled with gratitude for your goodness. Your talent is returned with interest of no common kind to him who is the author and bestower of all good—from him, and him only, will you receive your just reward.

PORT OF ALEXANDRIA....MARCH 77.

CLEARED,

Schr Emily, Meekins, New-York.

ARRIVED,

Sloop Hetty, Boston, 5 days from Seaford, Delaware; peach and apple brandy, cider, etc. On Wednesday, saw a topsail schooner below Cedar Point Narrows, bound up.

MEMORANDA.

Brig Venus, Saunders, at N. York 2d instant, up for this port.

Letter Bag at the E. C. House.

Ship Atlas, Capt. Jennison, for Cork, 16th March.

Brig Dove, capt. Barrett, for Madeira, 12th March.

Port of Norfolk, March 4.

The ship Temperance, A. C. Malvin, master, seventy-nine days from Bremen, with about one third cargo German goods, bound to Baltimore, anchored yesterday afternoon off the Horse-Shoe. The captain who came up to town to procure provisions, favored us with the following particulars:—Sailed from Bremen on Sunday, Dec. 14th—Left at that port ship Commerce, of Boston, Peterson, nearly ready to sail, with bricks, for Savannah; brig Havre Packet, Cazenow, likewise ready for Virginia, with a full cargo. On Monday, Dec. 8th, sailed ship Atalanta, Rose, from Alexandria with ballast, for Cape de Verd's Island: same day, schr Mary & Martha, Shaw, of Boston, for Boston; ship Francis & Sarah, Winslow, and ship Plato, Smith, laid up at Brake, for the winter.—Some pilots informed Capt. M. that the ship Romulus had put into Ramsgate. Wednesday, Dec. 31st (N. D) at 3 P. M. spoke ship Hunter, Hayse, in lat. 45, 5, long. 19, 44, from Philadelphia, bound to Bordeaux.—Thursday, Jan. 15th, (N. D.) at 11 A. M. fell in with two Spanish schrs, one a three masted, and the other a topsail schr, the latter fired a gun and came close to the T. and asked several questions which the captain could not understand, as the speaker was a Negro and spoke bad English; both vessels were deep loaded, armed and crowded with men, steering to the eastward.—Friday, Feb. 27th, (N. D.) at 10 A. M. in lat. 48, N. long. 23, 50, W. spoke schr Price, in company with sloop Travers, 36 hours from N. York bound to Porto Cabello.

Columbian Insurance Comp'y.

THE Columbian Insurance Company of Alexandria, under their charter by congress, announce to the public that they continue to insure against all manner of

Marine and Fire Risks;

and they are also now authorised to make insurance on

Lives.

They submit, for the information of applicants, the fundamental rules they have adopted under the authority of their charter, by which the principles that are to govern in all cases of marine and fire insurances are defined.

Applications for insurances may be made at their office, on Royal-street, (next door to the City Hotel) each day, from 12 to 2 o'clock, in writing; and the applicant is requested to add the name of the endorser he proposes to give on the premium note,

Columbian Insurance Office, Alexandria, March 6, 1818.

WM. HODGSON, Pres't
WM. WILSON, Sec't'y.

FUNDAMENTAL RULES FOR MARINE RISKS.

1. All rules and regulations in use by the Marine Insurance Company of Alexandria, and not contrary to the following, are adopted by this institution.

2. The credits for payment of all premiums exceeding fifty dollars, shall be as follow, by approved notes with one endorser, viz:

To or from— To & from
2 months—3 months—Ports in the United States, Louisiana excepted.
4 months—6 months—The West Indies, Louisiana, Florida, Spanish Maine North of the Equator.
6 months—8 months—Europe and Africa, European Turkey and the White Sea excepted.
7 months—9 months—Turkey, the Wh. and Black Seas, South America, (east coast) South of the Equator.
12 months—15 months—India and China and beyond the Cape of Good Hope and Cape Horn generally.

3. Insurances on vessels and on commissions are, in all cases, to be made in valued policies only. Those on commissions free from average and salvage.

4. It will be preferable that insurances on freight be likewise valued. But if "on freight" simply, two thirds of the amount of gross freight covered shall be understood to be the insurable interest. If bills of loading or charter parties stipulate no freight on goods, being owner's property, &c. the amount shall be fixed by arbitration, of freights for voyages out and home: one half is to be applied to each voyage, unless otherwise agreed upon.

5. On sums insured upon imaginary or expected profits, the same per centage in case of loss will be paid as would be recoverable on the value or cost of the goods themselves, general average and salvage excepted, to which profits are deemed not liable to contribute.

6. When a risk is offered to this company, on which prior insurances are made, it is requested that the circumstance be mentioned at the time of the application, if the policy applied for is to be a valued one, or if the prior insurances are made on valued policies.

7. Insurable interests of persons residing in the District of Columbia, under open policies on voyages out and home, are to be shown by simply covering the amount of the invoice with half the premium round. Persons residing out of the District have to add, in all cases, to their amount of insurable interest half per cent. commission for effecting insurance, and one and a half per cent. commission to recover losses. The amount of invoices understood to include a commission of two and a half per cent. on shipments from port to port in the United States, and five per cent. to or from foreign countries.

8. All persons having losses or return premiums to claim from this company, are desired to give notice thereof as soon as they are in possession of the requisite information. Should they neglect to do so, they would have to ascribe a delay in the adjustment to themselves, as it is intended to adjust and settle all claims against this company successively as they are notified.

9. This company will abide by all statements of general average made abroad under competent authority, and according to the local laws, if not incompatible with the express terms of their policies. They will refund contribution actually paid abroad by or for the insured as general average, without regard to the valuation of the property insured.

10. When general averages are stated here, goods are to be rated in the accounts of contributary capital at their actual net proceeds; and if that cannot be easily ascertained, at their cost, (according to invoice) with the premium of insurance covered, and ten per cent imaginary profit on the first cost and charges, exclusive of insurance. In all cases of general average or particular damage to be stated here, the insured shall give notice to this company immediately after the arrival of the vessel; and, thereupon, an application shall be mutually made to the mayor for the time being, or, in his absence, to a magistrate, to appoint three suitable and well qualified persons, being first duly sworn, to go on board, diligently to view, search and examine, as they may be directed, and to make such report as circumstances may require to the said mayor or magistrate under oath;—and this company will not be bound or made liable to pay any general average or particular damage which requires to be stated and settled here, unless the survey shall be conducted as aforesaid, or by some other mutual arrangement.

11. It is stipulated in the policies that this company will allow, in general average, seamen's wages and provisions in cases of capture or detention for adjudication; but they will not be answerable therefor in cases of Embargo.

12. When vessels or goods are insured to a port, into which they are not admissable, this company will continue on the risk to the next convenient open port, which the master in his discretion may choose to go to; but they will not, in such case, accept of an abandonment, nor will they contribute to the expenses of transporting goods by land or water from the port so chosen to that of original destination; nor will they pay a returned premium for shortening the voyage, if the master during the passage should be informed of the occlusion of his "destined" port, and in consequence of such information choose to go to another. Damage suffered by goods will in no case whatever be allowed in general average.

13. The insured shall be entitled to recover from this company a particular average or partial loss, as well as a total loss, on any number of packages properly distinguished by marks and numbers it agreed upon and specified in the policies, the same as if such number of packages (parts of a whole cargo or invoice insured in one policy) were insured in several policies.

14. When goods, the value of which is ascertained by weight, are damaged, the company will indemnify the insured for the deficiency in weight, which may be occasioned by such damage, by comparing the actual weight of the sound goods with that of the damaged, and with the invoice or valuation in the policy.

15. All liquids in casks or otherwise, are by a clause in the policy declared free from average, unless general or the ship be stranded—In a case of partial loss on liquids occurring under this stipulation, ten per cent ordinary leakage shall be always deducted.

16. A vessel shall be deemed "stranded" when she grounds and strikes on some bank, shore or rock, and can either not be got off at all, or not without extraneous help and unlading or throwing overboard her cargo or a part of it—The exertions of the ship's crew are not extraneous help.

17. When insurances are made against "sea risk only," and a vessel, which is so insured by this company, is taken or captured, the risk of the insurer ceases at the moment the vessel is taken; but if she is released or liberated, the risk of the insurer recommences as soon as she reached that point or one nearest to it, in good and proper condition, in the due course for her destined port, from whence she was diverted by the capture.

18. The president and directors of this company for the time being, shall have power to alter, amend, or abolish these rules, or any of them, and from time to time to add others to them, giving suitable notice thereof.

FUNDAMENTAL RULES FOR RISK AGAINST FIRE.

1. Persons desirous to make insurance on buildings, are to state in writing the following particulars, viz.: Of what materials the walls and roofs of each building are constructed, as well as the construction of the buildings contiguous thereto—whether the same are occupied as private dwellings or how otherwise—where situated—also the name or names of the present occupiers.

Each building must be separately valued, and a specified sum insured thereon; and in like manner a separate sum insured on the property contained therein.

All manufactories which contain furnaces, kilns, stoves, ovens, or use fire heat, are chargeable at additional rates.

In the insurance of goods, wares and merchandize, the building or place in which the same are deposited, is to be described, also whether such goods are of the kinds denominated hazardous, and whether any manufactory is carried on in the premises. And if any person or persons shall insure his or their buildings or goods and shall cause the same to be described in the policy otherwise than as they really are, so as the same be charged at a lower premium than would otherwise be demanded, such insurance shall be of no force.

2. Goods held in trust or on commission, are to be insured as such, otherwise the policy will not extend to cover such property.

3. No loss or damge to be paid on fire happening by any invasion, foreign enemy, civil commotion, riot or any military or usurped power whatever—nor for damage done by fire occasioned by earthquakes and hurricanes—but this company will make good losses on property burnt by lightning.

4. Books of accounts, written securities bills, bonds, and ready money cannot be insured.

5. Jewels, plate, medals, or other curiosities, paintings and sculptures, are not included in any insurance, unless such articles are specified in the policy.

6. Persons insuring property at this office, must give notice of any other insurance made elsewhere, for their behalf on the same, and cause such insurance to be endorsed on their policies—and, unless such notice is given, the insured will not be entitled to recover in case of loss.

7. Every policy of insurance issued by this company, shall be signed by the President and attested by the Secretary; and the person for whose interest the insurance is made, must be declared and named therein; nor can any policy or interest therein be assigned, but by consent of the company expressed by endorsement thereon.

8. No insurance will be considered as made or binding, until the premium be actually paid.

9. All persons assured by this company, sustaining any loss or damage by fire, are forthwith to give notice to the company, and as soon as possible thereafter deliver in as particular an account of their loss or damage, signed with their own hands, as the nature of the case will admit of, and make proof of the same by their oath or affirmation, and by their books of accounts or other proper vouchers, as shall be reasonably required, and shall procure a certificate under the hand of a magistrate or a sworn notary, of the town or county, in which the fire happened, not concerned in such loss directly or indirectly, importing that they are acquainted with the character and circumstances of the person or persons insured, and do know, or verily believe, that he, she, or they, really, and by misfortune, without any kind of fraud or evil practice, have sustained by such fire loss or damage, to the amount therein mentioned—and until such affidavit and certificate are produced, the loss claimed shall not be payable; also, if there appears any fraud, the claimant shall forfeit his claim to restitution or payment, by virtue of his policy.

10. In case any difference shall arise between the assured and the company, touching any loss or damage, such difference may be referred to two persons, one to be chosen by the assured out of three persons to be named by the President of said company, and the other by the President out of three persons named by the assured, whose award in writing shall be conclusive and binding on both parties. And when any loss or damage shall have been duly proved, the insured shall receive satisfaction to the full amount thereof without any allowance of any discount, fees or other reduction whatever.

11. Persons choosing to insure for seven years, will be charged for six years only—and for a less number than seven, will be allowed a reasonable discount.

12. The President and directors of this company, for the time being, shall have power to alter, amend, or abolish those rules, or any of them, and from time to time to add others to them, giving suitable public notice thereof.

FUNDAMENTAL RULES FOR FIRE RISKS.

Rates of annual Premium to be paid for Insurance, viz.

No. 1. Hazards of the first class—25 to 35 cents per annum per $100, viz. brick or stone buildings, covered with tile, slate, or metal, furniture or merchandize, not hazardous, contained in such buildings.

No. 2. Hazards of the second class—37½ to 50 cents per annum per $100; viz buildings, having the four walls of brick or stone, and covered with boards and shingles, furniture or merchandize, not hazardous contained in such buildings.—Hazardous goods, viz. Hemp, flax, oil, pitch, tar, rosin, turpentine, spirits-turpentine, aqua-fortis, salt petre, tallow, distilled spirits, or other hazardous goods in buildings of 1st class.

No. 3. Hazards of the third class—50 to 100 cents per annum per $100—viz. buildings constructed partly with brick or stone and partly with wood, or having either of the four walls of frame work filled in with brick. Furniture or merchandize, not hazardous, contained in such buildings. Hazardous goods enumerated in No. 2 or other hazardous goods in buildings of 2d class.

For sums not exceeding $10,000 on one risque—ships in port and their cargoes, ships building or repairing, also craft with goods on board, may be insured against fire. Larger sums may be insured by special agreement with the board as far as $15,000.—All buildings in contignity to hazardous buildings, or in other respects disadvantageously situate, will be charged an extra premium.

The rules may also in some cases be proportionately moderated upon timber buildings in the country, or when standing singly and detached, or attended with circumstances of peculiar security.

Soap boilers, tallow chandlers, brewers, malsters, bakers, ropemakers, sugar refiners, distillers, chemists, varnish makers, paper makers, stable keepers, tavern keepers, china, glass or earthen ware sellers, oil and color men, printers, coopers, carpenters, cabinet makers, coach makers, boat builders, ship chandlers or apothecaries, or any manufactory which requires fire heat, or buildings used for theatrical or other public exhibitions; are deemed extra hazardous

may be directed, and to make such report as circumstances may require to the said mayor or magistrate under oath;—and this company will not be bound or made liable to pay any general average or particular damage which requires to be stated and settled here, unless the survey shall be conducted as aforesaid, or by some other mutual arrangement.

Valuable Work.

MR JESSE E. WEEMS is engaged in procuring subscribers for the celebrated and truly evangelical Sermons of the Rev. Samuel Davies, late President of Princeton College, New Jersey. His plan and price of these volumes are detailed below.

—

Alexandria, 3d March 1818.

It is with pleasure I recommend Mr. Davies' Sermons, now re-publishing by the Rev. M. L. Weems—I know no Sermons which have been read with more interest and advantage. They display Ciceronean Eloquence and Christian Piety. They are a feast on which many have been refreshed.

JAMES MUIR, D. D.

—

Being called upon by Mr. Weems to give my opinion of Mr. Davies' Sermons, I feel free to recommend them, (with some reserve on his peculiar views of ecclesiastical polity) as calculated to promote the interests of religion and piety.

WM. H WILMER.

Alexandria, March 1, 1818.

—

I concur in the above recommendation of Davies' Sermons.

OLIVER NORRIS.

—

These SERMONS, sixty three in number, printed in 5 neat duodecimo volumes on good plain paper, type and binding, will be delivered to subscribers for five dollars, not to be paid until delivered.

Fan-Sash Making

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as it in town.

CHARLES COUNTY COURT, August Term, 1817

ON application to Charles County Court, by petition in writing of Samuel C. S. Jack, of Charles County, for the benefit of the act of assembly for the relief of insolvent debtors, passed at November session 1805, and the several supplements thereto on the terms mentioned therein, a schedule of his property and a list of his creditors on oath, so far as he can ascertain them, being annexed to his petition, and the court being satisfied by competent testimony that the said Samuel C. S. Jack has resided two years immediately preceding the time of his application in the state of Maryland, and being also satisfied that the said Samuel C. S. Jack is in actual confinement for debt, and the said Samuel C. S. Jack having entered into bond with sufficient security for his personal appearance in Charles County Court, and answer such allegations as his creditors may make against him: It is therefore ordered and adjudged that the said Samuel C. S. Jack be discharged from imprisonment, and that by causing a copy of this order to be inserted in some one of the newspapers edited in the district of Colombia, once a week for two months successively, before the third Monday of March next, he give notice to his creditors to appear before the said court at Charlestown in said county, on the said third Monday in March next, for the purpose of recommending a trustee for their benefit, and to shew cause why the said Samuel C. S. Jack should not have the benefit of the several insolvent laws of this state as prayed. Given under my hand this 12th day of January 1819.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills,

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samuel Lee, patentee, &c. I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water,

For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment,

A certain and safe cure for that disagreeable complaint, as well as other irruptions of the skin. Price 37½ cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters,

For weakly and infirm constitutions. Price 37½ cents a box.

Hinckley's Infallible Remedy for the Piles,

A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste,

For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache,

Which, in almost every case, gives instant relief in that distressing complaint. Price 37½ cents a bottle.

Cooley's Vegetable Elixir, for Coughs, Asthmas, Consumptions, &c.

A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. *Rich'd. H. Little*; in Washington City, by Dr. *David Ott*; in Georgetown, by Dr. *John Ott, Otho M. Linthum & Co.* and *Nathaniel Jewett.*

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from *LEE'S MEDICINE STORE,* No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

LEHN'S ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of these diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	
Lowness of spirits	Indigestion
Loss of appetite	Melancholy
Impurity of blood	Gout in the stomach
Hysteric affection	Pains in the limbs
Inward weaknesses and debility	Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.
